Title: STORAGE CAPACITOR WITH HIGH MEMORY CAPACITY AND LOW SURFACE AREA

IN THE ABSTRACT

Please amend the Abstract as follows:

**STORAGE CAPACITOR WITH HIGH MEMORY CAPACITY AND LOW SURFACE
AREA**

ABSTRACTAbstract

_____A storage capacitor includes at least one first electrode adjacent to at least one second electrode, whereby a lateral capacity is formed between these electrodes. The electrodes comprise stacks of metal parts and connecting contact elements. The second electrodes can be arranged around the first electrodes, and at least some of the second electrodes can be used jointly with adjacent ones of the first electrodes to form adjacent storage capacitors.
